## AMAZING FISH YARNS.

A traveler who has recently returned from a trip through British Columbia says that one day last November it was possible to lay boards on top of small fish in a small stream, which empties into the Fraser and pass over, as if on a living pontoon bridge to the opposite bank. The fish had been driven into the stream by the back-water of the Fraser and were packed together like sardines in a can.

Many curious fish have been brought to light by the artesian wells which are being sunk from time to time in various parts of Florida. At the Ponce de Leon Well state fish of an unknown species were found at a depth of 1,000 feet.

A huge devil fish was captured in Victoria Harbor a week ago by three adventurous fishermen. The monster weighed over a hundred pounds and measured several feet across the back. It was taken alive and pulled into the boat, where it promptly seized hold of seats, oars everything it could get its mouth on. The fish was so voracious that it was impossible to handle it without force. Into the water it was thrown, where it was killed by a very strong and steady stream of water. It was a vital spot between the great fish's eyes and a boat-hook soon found it.

William Sykes, a Mississippi plant  
went fishing near Jocks Landing one mo-  
ing, and while he was trying to impale  
minnow on his hook the diminutive fi-  
wriggled out of his fingers into his mos-  
and slipped down his throat. He w-  
home and took an emetic, but it had e-  
fect, and although all this took place so  
time ago the fish still remains in his stom-  
Sykes hasn't worried much about the n-  
ter and tells his friends that he feels  
unpleasant effects from his abdominal v-  
tor. He even says that he experiences  
certain pleasure in feeling the fish grow.

A typical instance of its fecundity is related by a farmer residing near Fairfield, Va. Four years ago he started a pond with three small carp, and this year he reports his stock at 12,000. In the mean time there has been no loss of fish. The fish have attained a great size and are said to be of fine taste. Their flesh is somewhat like that of the buffalo fish and is rather coarse grain for the table.

Prokudin says there is nothing to prevent a fish from living an incredible number of years and growing to an enormous size. He cites in proof of the statement an immense pike living in Russia whose age he dates back to the fifteenth century. Appropriately, a well-known Canadian artist now in New York says that while travelling in British Columbia a few months ago he has shown a gigantic sturgeon which was killed by the people to have lived in the waters of the Fraser River, to their certain knowledge, time out of mind, and which, at its capture more than a year ago, had finished food for several families. The same is said of sturgeon, and of trout.

of the Fraser River, to  
ledge, time out of mine

**What's the Matter with This Menu?**  
Guest: (to landlady)—What can you  
me up for dinner, landlady?  
Landlady—Anything you want.  
Guest—Doesn't care for fish-balls?  
Landlady—No, I don't like fish-balls. I'll  
cook a couple of chops, and two well done.  
Landlady—Well, it's a little late  
chops; but I can give you anything later.  
This fish-balls is poor.  
Guest—A small porter-house, with  
rooms.  
Landlady—A bridal couple ate the  
mushrooms I had in the house not ten  
days ago. I've got some all Tucuman  
beefsteak, and I'll cook it exactly, if you  
wish.  
This fish-balls are brown

**Guest—**Vee! eatlets!

**Lanlord—**The last bit of my meal will make chicken sal—er—oh, I said: Vee! eatlets! I can give you anything else, but I don't like myself, and I'm boneless as tapiooa pudding.

**Guest—**Oh, yes, sir? You're the judge of the supreme court asked for the slice only this evening.

**Guest—**Got any spring chicken?

**Lanlord—**I'll have some nice ones for breakfast. But if there's anything else wanted—nice hot fish-balls, or—

**Guest—**Oh! I met have some liver bacon.

**Lanlord—**We don't have liver and bacon after 2 o'clock, sir. It's just luck we've got them fish-balls.

Guest—Bring me some fish-balls !  
Landlord—Yes, sir ! Tea or coffee ?  
Guest—Coffee !  
Landlord—Well, the coffee is all out, I guess you'll have to take tea !

In the best columns will be charged as follows: One line for first insertion, over three lines, for five days, 10c per line; for one week, 15c per line; for one month, 40c per line; for three months, 1.10c per line; for six months, 2.00c per line; for one year, 3.50c per line. No insertion less than 10c.

# HOME MATTERS.

Measures are now prevalent in the village and neighborhood.

There was no meeting of the School Board on Tuesday evening last.

Remember, order day in North Hastings is next Friday, the 12th inst.

Mr. G. A. Graham, of the Trenton Advertiser, gave in a call on Monday last.

The teachers of the Stirling Public School are away attending the Teacher's Convention at Malton.

Mr. McLeary, the popular general agent for the Sun Life Assurance Company, was in town on Monday.

Leave your orders for picture frames at The News-Advertiser office. A large stock of mouldings is on hand, and they can be made at lowest possible prices.

Rev. S. J. Thompson, of Malton, will preach in the Stirling Methodist Church next Sabbath morning and evening, and at the Carmel Church at 2.30 p.m.

We notice that in many places preparations are already being made for a celebration of the Queen's Jubilee. The question has been asked: "Is it worth the celebration?" If so, some steps should be taken in the matter very shortly.

The plans for the High School building submitted by the School Board to the Education Department have been approved. The specifications are now being prepared, and will be ready in a few days, when the work will be pushed vigorously to completion.

The first brick of the Conley block of buildings was laid on Monday, and the way the work is running, it is hoped, will give promise of its early completion. The Oldfield have arranged for the third floor for a hall, and will occupy it as soon as finished.

Mr. Duncan Reaney, who recently erected the hotel at Springfield, now living at Mr. McLeary's, has still faith in the property of the village, and is now planning to have a new establishment, in connection with which he will establish a flour and feed business.

The entertainment given by Mr. D. W. Campbell, under the auspices of the Church of England, on Monday evening last, was rather thinly attended, but not at all such as it deserved. The songs were very excellent, and the descriptions very entertaining and instructive.

During the past few days a large number of maps have been set out along the streets, and on the premises of some of our citizens, and in a short time, with proper care, will become an ornament to the village and afford convenient shade from the heat of summer. There is yet room for more.

The village of Malton is steadily progressing, and is looking eagerly forward to incorporation. It is good within the last few years has been considerable its business has also much increased, and that, together with the development of the gold mine, may yet become a place of some importance.

A party consisting of the Rev. Dr. Faulkner and Mr. Boldrick, went out to Spinner's creek trout fishing on Monday last, and spent a couple of hours in the river. They were fairly successful, and brought home a good number of speckled beauties. They state the water is too high yet for good fishing.

In accordance with the rule adopted by many of our contemporaries, we are about to publish a notice in the News-Advertiser of public entertainments, where an admission fee is charged, must be paid for at the rate of 5c. per line, unless full printing of some kind has been provided for in the office, in which case a free notice will be given.

The Council has at last made an effort to abate the nuisance of cattle and dogs running at large during prohibited hours, and it is hoped that the measure will be successful. Many of the villagers have suffered greatly from the depredations of these animals in the past, and it is hoped that the future generations will be safe from their depredations.

On Tuesday evening last a meeting of the young men of the village was held to consider the advisability of forming an Athletic Association here. After some discussion a committee was formed to canvass the village and report at a meeting to be held in the South House this Friday evening, when all are invited to attend. It is to be hoped that in this respect, it is to be hoped that there will be a lively interest taken in it.

The annual meeting of the Malton District of the Boy's Guild conference will be held in the Methodist Church, Stirling, commencing on Wednesday, the 10th inst. About fourteen ministers and as many lay delegates are expected to be present. The session will continue for two days. In the evening of the 25th a public meeting will be held in the church, and an address will be delivered by several of the visiting clergy.

We understand that Mr. John Colby has already leased the shops in the new block, and is erecting, and is thus assured that his present outlay will prove profitable. His enterprise is deserving of success. By his ability and energy he has made money here and now he is laying it out in a way that is a credit to himself and the village. We would be pleased to see a business man showing the same enterprising spirit and ability, benefitting themselves it would also be to the benefit of the village.

Now is the season of the year when hard yards and premises should be thoroughly cleaned and not left in a state to invite disease and dirt. The government is taking precautions against cholera, and our local board of health should see that the village is in such a state as not to prove a ready field for the operation of this or any other plague. The proper plan would be to appoint a sanitary inspector whose duty it would be to look after these matters and present a list to the village in this respect. This is the course adopted in most places, and the same should be adopted here.

Of late there have been a number of peddling wagons driving through the village professing to give goods at reduced prices, and by the plausible address of the peddlers many persons are induced to give the merchant a little thought they would see that they are getting a bargain. It is a pity that such a thing should be going on, and that it is a pity that such a thing should be going on, and that it is a pity that such a thing should be going on.

# Village Council.

Council met at the Rev. Mr. McLeary's on Wednesday evening last.

Minutes of last meeting read and approved. A letter was received from the North Hastings Agricultural Society accepting the proposal of grant of \$200 to aid in erecting buildings for the use of said Society.

Moved by Dr. Butler, seconded by Mr. Wheeler, that the Council grant to the N. H. Agri. Society the sum of \$200 to prepare a building in Stirling for the purpose of holding the said Society's Annual Fair and Cattle Show. The conditions are that the said Society shall continue the said fair in Stirling for the next seven years, and the Council shall have the right to purchase the land on which the buildings and temporary improvements of said grounds are to be the property of the Corporation of Stirling, and that a copy of this resolution be sent to the Secretary of said Society. Carried.

Accounts were presented for work done on the Stirling Public School. \$1.00

On motion the above accounts were ordered to be paid.

Moved by Mr. McKee, seconded by Mr. Bush, that Mr. J. McKee be appointed to look after and enforce the law prohibiting cattle and dogs from running at large, and that he be authorized to issue a warrant for the arrest of any person who is found guilty of this offence.

Moved by Mr. McKee, seconded by Mr. Bush, that the Clerk advertise the abstract statement of the receipts and expenditures in the News-Advertiser.

Moved by Dr. Butler, seconded by Mr. Wheeler, that the street committee for the year ending at the end of the year, Mr. McKee and Mr. Bush, Carried.

Adjourned.

Stirling Public School.

# The Richardson Gold Mine.

The crushing of a large quantity of ore from the above mine was commenced at the Richardson mine on Monday last.

The management of Mr. D. H. Butler, who has the Richardson mine, is very successful, and the results will be a sort of test of the value of the Richardson ore, and very favorable results are looked for. Mr. Butler is confident there is a mine of gold in the Richardson mine, and he is not sure that there is a better authority in this part of the country.

—Malton Review.

The Sanitary Inspector of Belleville has given notice that all poultry brought to market hereafter must be clean. This is a very reasonable and would be made compulsory everywhere.

The trustees of the Belleville Home have decided to celebrate the jubilee year by establishing a house for the street children of Belleville, and the erection of an industrial farm for the employment of the older lads rescued from the great towns. These and other prospects are contemplated at a cost of \$200,000.

Births.

sonable beast; but he put her bridle on a tree branch, for all that. Certainly

When, when it's about  
bit of a dandy. But he didn't  
to her about the comb and glass  
being a bachelor, of course he  
about suggesting as her hair wa  
all down her back in two long, f  
to her, for he thought it was prett  
his mind, but he may have been  
she knew he noticed it. So he ju  
bit of glass handy and took himse  
When he came back, he says, he  
baby asleep, and smoothed and t  
how, and the woman as neat as  
women are so clever at straighten

the blood—once the  
rain—could flow a bit  
A bushman has to be  
snow. Then the baby  
gave a loud shriek, and  
opened her eyes and  
on giving her water  
take it till she could  
comfortable. He didn't  
know, knowing she want-  
around; but he  
her arms, and the

her like to take a drink in the belly get some as a while, and to try in low standard, he set by and told her not to be was found; and being lost was done and so on. All the while he was hurrying and crying and crying time, breathing time, the creek to camp thinking of that he the woman had got and die where she was.

out what he'd decided to do. The child must get to Gundaroo, the next night, too; so must the "cows" carry them well enough she could carry him. Then, then he'd stay behind and walk, would go along the track through alone, he knew, and if only the have the pluck to trust herself to just go on, and hold the reins all get to Gundaroo, and then they could then deliver up the bags at Office and tell them to send out party to look after her husband chum and a horse to meet him.

He knew he was sure to get into

[illegible]

As soon as it was light he set to work repairing the things he was going to keep. Those he was going to send on the "Royal She-mail," as he called her to himself. He looked at the two on the other side of the fire under the sky. The kid was comfortable, cradled in soft arms; but the mother lay just about as uncomfortably possible to lie, so as to shelter the Standard, who noticed everything.

“You must be  
note of this, and thought he’d work  
the morning.  
After he fed ‘Lady,’ about five  
o’clock, he must have the horse that  
“Royal (She-mall) as smart as a  
night’s rest in the fresh early morning  
after two days,  
he didn’t come  
stand that last  
“I want to come,”  
and the baby  
“I don’t want to move  
back. Stand  
“Where there, and if you  
could tell me
